Cage Systems
Don't let cages be the weak link in your security setup.

When you need to create a secure partition within the data centre, only purpose-built cages will do the job.

WhiteSpace cage solutions are engineered specifically for the data centre, helping you comply with all applicable security standards, such as those outlined in SSAE 16, HIPAA, PCI, and SOC2.

Data centre-grade, from top to bottom.

Standard Specifications:

- Steel frames and caging for rock-solid installations and a long lifespan.
- 3/8" perforations, preventing intrusion with RJ45 connectors while allowing plenty of room for airflow.
- Bottom clearance of 1.5" to accommodate floor tiles.
- Modular design for easy expansion and reconfiguration as your facility evolves.

Application & Uses

- Colocation facilities
- ISPs and hosting providers
- Server farms
- Mixed-use facilities
- Securing sensitive data
- Protecting back-up generators and UPS systems
- Creating secure staging and repair areas

Customize Your Cage

Our cage systems come with multiple options to help you get the best solution for your environment.

Layout:
- Available in 1, 2 and 3-sided attached units, as well as 4-sided standalone units.

Side Panels:
- Panels can be joined together in straight lines or corners to fit into any space.
- Heights: 7', 8' 9', and 10'
- Widths: 1', 2', 3', and 4'

Doors:
- Right- and left- sliding doors help minimize the footprint of your partition.

Ceilings:
- Optional ceiling panels help prevent entry from above.
- 3' sizes: 3' x 3', 3' x 4', 3' x 5'
- 4' sizes: 4' x 3', 4' x 4', 4' x 5'

Locks:
- Multiple locking options include key locks, keypads and card readers.
- All locking systems can be integrated into facility security systems.

Mounting:
- Mounting hardware available for slab floors, raised floors, walls and ceiling.

Colors:
- Available in black or nu-grey to match the look of your facility.

Four-sided, stand-alone cage.

Single-sided cage.

Start-to-finish support

All our cage systems are supported by an experienced design and installation team to ensure you get the right cage, properly installed.
